This information has been assembled for use by NHLBI staff and the National Heart, Lung, and Blood Advisory Council. Questions regarding any of this information should be directed to the Information Systems Branch—OPPE-NHLBI.

DISCRIMINATION PROHIBITED: Under provisions of applicable public laws enacted by Congress since 1964, no person in the United States shall, on the ground of race, color, national origin, sex, or handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. In addition, Executive Order 11141 prohibits discrimination on the basis of age by contractors and subcontractors in the performance of Federal contracts. Therefore, the National Heart, Lung, and Blood Institute must be operated in compliance with these laws and executive order.

Alphabetical Listing of Investigators.....	585

INTRODUCTION

This publication contains information on research grants and contracts supported by the National Heart, Lung, and Blood Institute. It is published in the interest of providing timely information about the research supported by the National Heart, Lung, and Blood Institute (grants and contracts active December 1978) and with an awareness that information for a few projects active at this time was not available.

This index is prepared in cooperation with the Research Documentation Section, Statistics and Analysis Branch, Division of Research Grants, National Institutes of Health. It is based on the indexing of the System for the Computerized Retrieval of Information on Scientific Projects (CRISP).

Project Identifiers

Projects (grants and contracts) are identified in this index through a series of codes (see Definitions of Prefixes). Other codes designate the initial review groups (see Initial Review Groups). They appear in the various sections, as illustrated by the diagram below.

	<i>Prefix (Kind of Project)</i>	<i>Institute Designator</i>	<i>Project Serial No.</i>	<i>Suffix</i>	<i>Large Grant Subproject #</i>	<i>Initial Review Group</i>
Grant	P01	HL	12345	-08	007	(HLBA)
Contract	N01	HV	12345	-02		(HCRG)

For a grant, the suffix is the approximate length of time a project has been supported; for a contract, the number of modifications.

The following mnemonics are used as Institute designations:

- Grants: **HL** — National Heart, Lung, and Blood Institute
- Contracts: **HB** — Division of Blood Diseases and Resources
 HI — Division of Intramural Research
 HO — Office of the Director
 HR — Division of Lung Diseases
 HV — Division of Heart and Vascular Diseases

Alphabetical Listing of Subjects

Subject headings are listed alphabetically. Under each subject heading relevant projects are listed numerically with their titles.

In the case of large grants, the grant number is repeated under each subject heading for each relevant subproject, together with the appropriate subproject number.

Project Identification and Investigator Address

Projects are arranged alphabetically according to the Institute designator (HB, HI, HL, HO, HR, HV). For each of these codes, projects are listed in numerical order.

Several project directors within a parent grant may be listed. The institution address appears only with the first entry.

Alphabetical Listing of Investigators

The names of the principal investigators of active grants or contracts are listed alphabetically. In the case of large grants where there are several subprojects, the name of one investigator may be repeated several times. Numbers of subprojects which have been disapproved in the review process, or which have been completed, do not appear in this index.

General

By using the last two sections of this index in conjunction with each other, it is possible to determine who is doing what kind of research and where.

DEFINITIONS OF PREFIXES USED IN PROJECT NUMBERS

- N01-Research and Project Contracts:** To develop and/or apply new knowledge or to test, screen, or evaluate a product, material, device or component for use by the scientific community.
- P01-Research Program Project Grants:** For support of a multicategorical approach and usually long-term program of research activity. These grants are usually directed toward a limited range of problems within a specific category, having a central research focus.
- P50-Specialized Centers of Research:** To support any part of the full range of basic to clinical research and development related to cardiovascular, pulmonary and blood diseases. These grants differ from program project grants in that they are usually developed in response to a program announcement and subsequently receive continuous staff attention.
- P60-Comprehensive Centers:** To support a multipurpose unit with the following objectives: fostering biomedical research and development both at the fundamental and clinical levels; community education, screening, and counseling programs; education of medical and allied health professionals; demonstration program on diagnosis, prevention and treatment of cardiovascular, pulmonary and blood diseases.
- R01-Traditional Research Grants:** To support a circumscribed project to be carried out under the direction of a named principal investigator in an area representing his or her specific interest and competencies.
- R10-Cooperative Clinical Research:** To support clinical evaluation of various methods of therapy in specific disease areas. These are usually collaborative programs between sponsoring institutions and principal investigators, and usually conducted under a formal protocol.
- R13-Conference Grant:** To support international or national meetings, conferences and workshops.
- R18-Research Demonstration and Dissemination Projects:** To provide support designed to develop, test, and evaluate health service activities, and to foster the application of existing knowledge for the control of categorical diseases.
- R23-Young Investigator Award:** A program of the National Heart, Lung, and Blood Institute to support basic and clinical studies for trained investigators to initiate new programs in the cardiovascular, pulmonary and blood diseases areas.
- R25-High Blood Pressure Education Research Program:** A program with the following objectives: to foster research that would identify the characteristics of a hypertensive individual that are related to, or are suspected of relating to, adherence behavior; to develop educational interventions aimed at altering the behavioral characteristics of hypertensives to bring about immediate and long-term adherence to therapy.

[The text on this page is extremely faint and illegible. It appears to be a multi-paragraph document, possibly a letter or a report, with several lines of text visible but not readable.]

INITIAL REVIEW GROUPS

Study sections and committees responsible for the initial technical review of research grant applications are listed with their abbreviations. Contracts are reviewed by ad hoc peer review groups.

AFY	— Applied Physiology and Orthopedics Study Section
ALC	— Alcohol Research Review Committee
ALY	— Allergy and Immunology Study Section
AR	— Animal Resources Advisory Committee
BBCA	— Biophysics and Biophysical Chemistry A Study Section
BBCB	— Biophysics and Biophysical Chemistry B Study Section
BCM	— Biomedical Communications Study Section
BIO	— Biochemistry Study Section
BM	— Bacteriology and Mycology Study Section
BMT	— Bioanalytical and Metallochemistry Study Section
BPS	— Biopsychology Study Section
CBY	— Cell Biology Study Section
CLR	— General Clinical Research Centers Committee
CMS	— Communicative Sciences Study Section
CTY	— Molecular Cytology Study Section
CVA	— Cardiovascular and Pulmonary Study Section
CVB	— Cardiovascular and Renal Study Section
EDC	— Epidemiology and Disease Control Study Section
END	— Endocrinology Study Section
ET	— Experimental Therapeutics Study Section
EVR	— Experimental Virology Study Section
GEN	— Genetics Study Section
GMA	— General Medicine A Study Section
GMB	— General Medicine B Study Section
HBP	— National High Blood Pressure Education Research Program Committee
HCRG	— Heart, Lung, and Blood Peer Review Groups for Contracts
HCT	— Health Care Technology Study Section
HED	— Human Embryology and Development Study Section
HEM	— Hematology Study Section
HLBA	— Heart, Lung, and Blood Research Review Committee A
HLBB	— Heart, Lung, and Blood Research Review Committee B
HSDG	— Health Services Developmental Grants Study Section
HUD	— Human Development Study Section
IMB	— Immunobiology Study Section
IMS	— Immunological Sciences Study Section
MCB	— Microbial Chemistry Study Section
MBY	— Molecular Biology Study Section
MCHA	— Medicinal Chemistry A Study Section
MET	— Metabolism Study Section
NEUA	— Neurology A Study Section
NEUB	— Neurology B Study Section

- NSS** — No Initial Review Group
- NTN** — Nutrition Study Section
- PCB** — Pathobiological Chemistry Study Section
- PC** — Physiological Chemistry Study Section
- PHRA** — Pharmacology Study Section
- PHY** — Physiology Study Section
- PTHA** — Pathology A Study Section
- PTHB** — Pathology B Study Section
- PTR** — Pharmacology-Toxicology Review Committee
- RAD** — Radiation Study Section
- REB** — Reproductive Biology Study Section
- SAT** — Surgery, Anesthesiology and Trauma Study Section
- SB** — Surgery and Bioengineering Study Section
- SRC** — Special Review Committee
- SSS** — Special Study Section
- TMP** — Tropical Medicine and Parasitology Study Section
- TOX** — Toxicology Study Section
- VISA** — Visual Sciences A Study Section
- VISB** — Visual Sciences B Study Section
- VR** — Virology Study Section

- R01HL-21158-02 Cardiac receptors with vagal C-fiber afferents (cats)
- R23HL-21434-02 Intrinsic control of coronary blood flow by chemicals (guinea pigs)
- R23HL-21901-01 Hypertension, microvascular control and exercise (rats)
- R01HL-22008-01 Left ventricular calcium content and contractility (rats)
- R01HL-22080-01 Phosphorus NMR studies on cardiac tissue (rats, rabbits)
- R01HL-22231-02 Modulation of calcium control of cardiac myofibrils (rats)
- R01HL-22259-01 Modification of susceptibility to oxygen poisoning (rats)
- R01HL-22315-01 Intraoperative cardiac oxygen supply-demand (dogs, rabbits, rats)
